ACE Academy

Join the Liberty CDC in introducing the aviation industry and aviation opportunities to our middle and high school age students.

Signup today! Apply at the aviation Website at:
www.ncaviationeducation.com
And click on "Apply Now" or for further assistance call James Shaw at 336-306-8145

1001 S. Marshall Street
PO Box 17
Winston-Salem, NC 27101

ACE Academy is brought to you by Mr. James Shaw who is dedicated to helping the youth of the city reach their goals.

Mr. Jim Shaw while serving on the Board of the NCDOT Division of Aviation, Mr. Shaw learned that ACE Academies had been established in four other NC cities. Mr. Shaw requested that an ACE Academy also be established in Winston-Salem and offered his services to organize and operate an ACE Academy there. Since then the ACE Academy has had four great years of service to our community.

HIGH TO REACH THEIR
POTENTIAL**

ACE Academy

The Aviation Career Education (ACE) Academy is an exciting weeklong program for Middle and High School Students. The camp will focus on:

- The theory of flight
- Aviation history
- Aviation careers

The Camp will explore the real world of aviation applications, including:

- Aircraft flight
- Radio-controlled aircraft
- Aircraft construction
- Aircraft design
- Flight Simulator

The students will take field trips to learn more about aviation. Students will have the opportunity with an experienced pilot to fly in a helicopter and an airplane and to pilot and land an airplane. In 2013 we will add an additional field trip site-the North Carolina Transportation Museum in Spencer, NC.

Tools for a Lifetime:

The ACE Academy takes pride in presenting aviation resources and tools for the student not only during the camp period but throughout the year. ACE Academy provides students information and assistance in their ongoing desire to build a career path in aviation. We show students that they can make a good living in aviation.

The opening ceremony for the Aviation Career Education (ACE) will be on June 22, 2015 starting at 9:00am at Smith Reynolds Airport in Winston-Salem.
